هذا السؤال للمتغبين عن الامتحان "النصفى الثانى" الذين قبلت أعارهم فقط

You need to design a database for XYZ corporation in Palestine. Each of the XYZ Corporation's divisions is composed of many departments. Each of the departments has many employees assigned to it, but each employee works for only one department. Each department is managed by one employee, and each of these managers can manage only one department at a time. Sketch the conceptual Model of the ERD and show all of the possible attributes of each Entity. In addition, show the relationships between the entities.
