10. Epidermis an inner thicker layer gives strength to the skin . ( )

**Question Two: Select and circle the correct answer from the following alternatives for each sentence: (2.5 Marks).**

**1. Which of these is Long bone :**

- |            |             |
|------------|-------------|
| a. Patella | b. Femur    |
| c. Skull   | d. Vertebra |

**2. The following are flat bones except:**

- |            |             |
|------------|-------------|
| a. Ribs    | b. Scapula  |
| c. Sternum | d. Vertebra |

**3. The following bones are parts of pelvic bones except:**

- |            |          |
|------------|----------|
| a. Ischium | b. Ilium |
| c. Patella | d. Pubis |

**4. Which of these bones is not a cranial bone.**

- |                  |                   |
|------------------|-------------------|
| a. Frontal bone  | b. Femur bone     |
| c. Temporal bone | d. Occipital bone |

**5. Which of the following is a skin structure:**

- |              |          |
|--------------|----------|
| a. Epidermis | b. Bone  |
| c. Dermis    | d. a & b |
