Course No: EQUP 4230
Course Title: أ **Biomedical Instrumentation**
II (أدوات قياس 2)
Date: 11-3-2019
No. of Questions:
Time: *60 Min*
Using Calculator: *(Yes)*

University of Palestine

First Exam
2019-2018
Total Grade:15

Instructor Name: Hazem Al-Qassas
Student No.: _____
Student Name: _____
College Name: *ENG*
Dep. / Specialist: *BME*
Using Dictionary: *(No)*

Question # 1: Complete   (5 Marks)

1-………………… **Is** an instrumental examination able to give information regarding functionality of the peripheral ………………..…... and …… ……………………..

2-The ……….. uses surface electrodes for the recording system, the stimulation system and the earth.

3- Known ………………. are applied to the nerve, which activate the sensitive fibres or the muscle fibres, recalling ……………. that travel along the nerve and that will be recorded by electrodes positioned at a certain distance.

4- The …………… calculates the neurophysiological parameters of these potentials, represented by the ……………..…..and ……………..…. and ……………………

5- Muscle Waves are ……………………and…………………and………………..

6- The …………… expressed in m/s, in normal adult subjects, vary from a minimum of …….. to a maximum of……… depending on the nerve examined.

7- The …………… increases when moving from the peripheral receptors to the …………………… and is faster in the upper limbs than the lower ones and also increases with the age of the patient.

8- The **CS** is given from the formula:………………………………………………..

9- Some metabolic problems can damage………………..and………………………

10- **MUP** Stand for………………………………………………………………

Question # 2: List   (5 Marks)

-List the Cerebral Cortex Lobes and its Functions?

……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………

-List and Explain and draw The Main EEG Waves ?

……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………
……………………………………………………………………………………………

1- List the Types of EEG Recording?

………………………………………………………………………………………………
………………………………………………………………………………………………
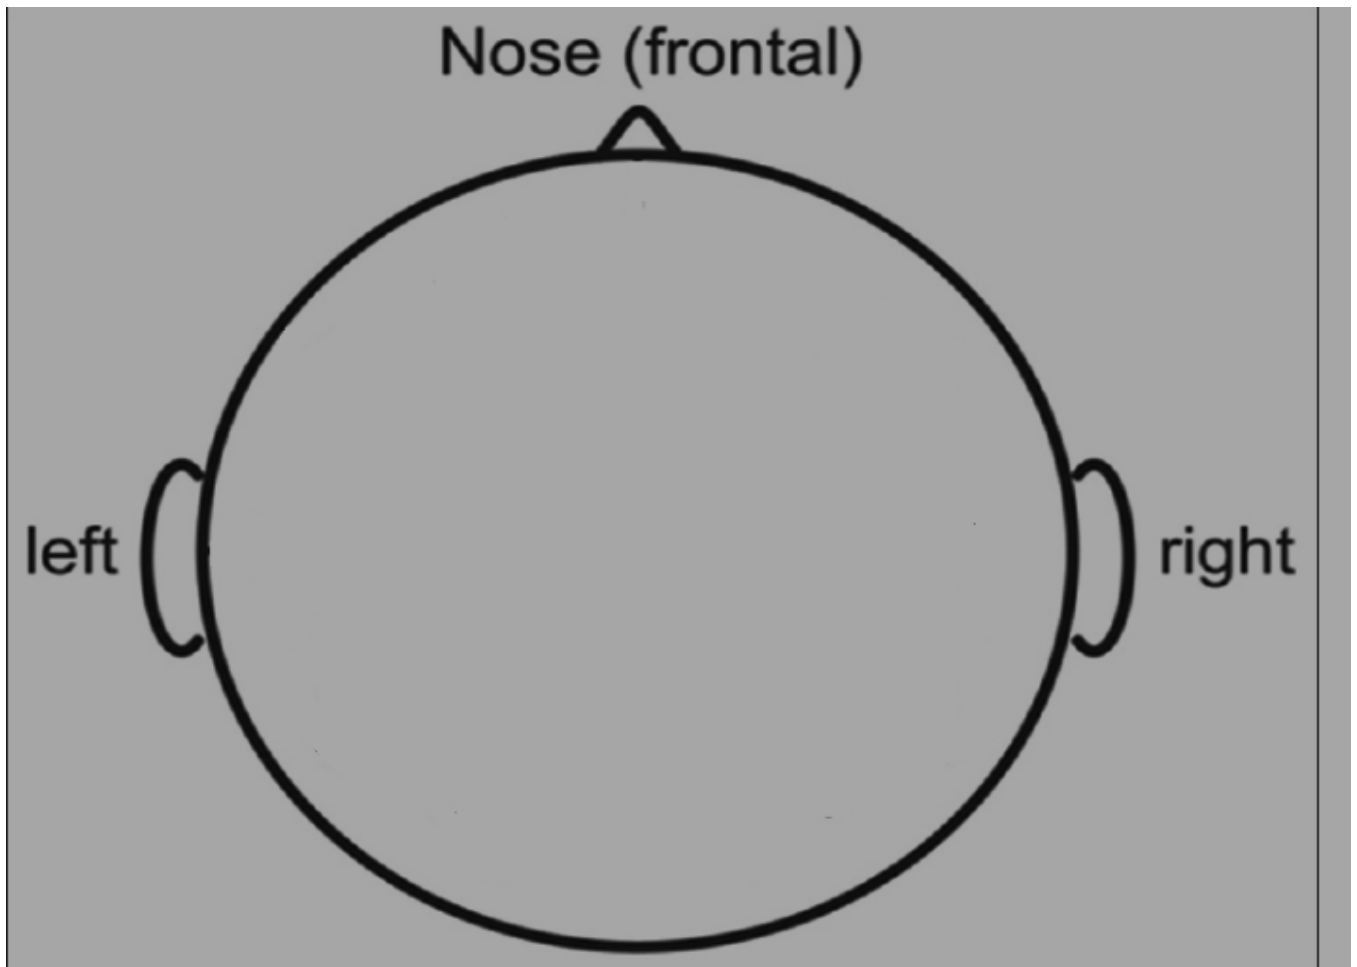

Question # 3: Drawing   (5 Marks)

-For Figure below if Adult Patient have the distance between **inion** and **nasion** **34 cm by using 10%-20% System answer the Following?**

1- Calculates the Distance between the Electrodes?

2-Write how we can place the EEG Electrodes (Letters and even and odd Numbers) on scalp?

………………………………………………………………………………………………
………………………………………………………………………………………………
………………………………………………………………………………………………
………………………………………………………………………………………………
………………………………………………………………………………………………
