Question One:

10 M.

Say whether the following sentences are true (T) or false (F).

1. In chain organization, a short paragraph often separates one major section from another major section.
2. Block organization usually works better than chain organization when the causes and effects are too closely linked to be separated.
3. In point-by-point organization you could discuss either the similarities first or the differences first.
4. The number of paragraphs in each block depends on the topic.
5. If you shorten the story- retelling only the most important points and leaving out the details- It is a paraphrase.
6. A thesis statement often mentions the opposing point of view.
7. A dependent clause contains a subject and a verb and expresses a complete thought.
8. The kind of sentence is determined by the kind of clauses used to form it.
9. Comparison signal words fall into two main groups according to their meaning.
10. A complex sentence contains one independent clause and one (or more) dependent clause(s)

10	9	8	7	6	5	4	3	2	1
