Passage 1

Matt is moving into his new bedroom today. He has four pieces of furniture to move into the room. He has a bed, a dresser, a desk, and a chair. Matt has to plan out how he will move everything. The bed must go in first. It has to be taken apart to fit through the doorway. It will be easier to put the bed back together if it is the only thing in the room. Then he can push the bed against the far wall. The other pieces of furniture can go into the room in any order. However, the dresser and desk are both too wide to fit through the doorway. They must be turned sideways. The chair is the smallest piece of furniture. It is also the easiest to move.
