

Course No: DNTS1306
Course Title: General Anatomy
Date: 03/08/2013
No. of Questions:
Time: 1.00 hour
Using Calculator :(No)

University of Palestine

Midterm Exam
Summer Semester
2012/2013
Total Grade: 20

Instructor Name: Dr Mahmoud Matar

Student No.: _____
Student Name: _____
College Name: _____
Dep. / Specialist: _____
Using Dictionary (No)

A-multiple choice questions.

1-In hinge type joint ,which is true?

- a-uni-axial.
- b-central bony surrounded by ligament.
- c-two convex articular surfaces articulation.
- d-shoulder joint is example.

2-glenohumeral joint which is true?

- a-synovial ball and socket joint.
- b-minimal movement is allowed.
- c-synarthrosis joint.
- d-no ligament is present.

3-Brachial plexuses which is true?

- a-main blood supply to the upper limb.
- b-lies in both axilla and the neck.
- c-main nerve supply to the lower limb.
- d-formed by ventral rami of c3-c8.

4-in nerve damage which is true?

- a-ulner nerve damage cause wrist drop.
- b-median nerve damage cause ape hand.
- c-radial nerve damage cause claw hand.
- d-ulner nerve damage cause ape hand.

5-the fibula which is true?

- a-does not bear weight.
- b-no muscle attachment.
- c-major component of knee joint.
- d-no role in ankle stability.

6-quadricpes femoris muscle which is true?

- a-largest muscle attach to the tibia.
- b-innervated by femoral nerve.
- c-consist of 3 muscles
- d-very small muscle at the pelvis.

7-in lumbo sacral plexuses which is true?

- a-sacral plexuses lies cephalid to lumber plexuses.
- b-major blood supply to the lower limb.
- c-lumber plexuses lies on quadricpes muscles.
- d-lumber plxuses arise in psoas muscle.

8-in lower limb blood supply which is true?

- a-external iliac artery supply the pelvic organ.
- b-internal iliac artery supply the lower limb.
- c-common iliac artery arise from aorta.
- d-common iliac artery arise from lumber plexuses.

9-Patella which is true?

- a-Has no function.
- b-Articulate with the tibia.
- c-Sasemoid bone.
- d-Dosnot has tendon attachment.

10-All of the following muscle are rotator cuff except?

a-Supraspinatous.

b-Infraspinatous.

c-Teres major.

d-teres minor

B-choose the correct answer between practice.

1-cell responsible on bone breakdown (osteoclas – osteoblast –osteocyte).

2-bone matrix composed of (25%water-50%protein-25%mineral salts).

3-cranial bone is (long bone- flat bone – short bone).

4-atlantoaxial joint is (hinge joint- pivot joint- ellipsoid joint).

5-increase of spinal anterior curvature is (scoliosis-lordosis-kyphosis).

C-write short notes on the following.

1-what is the periosteum and it is function?

2-what is the function of the bone?

3- what is the factors involved in joint stability.
